The monochrome ribbon is a very cost-effective process for personalizing pre-printed cards. It stands as the ideal solution for cards that do not require color personal elements such as a picture.
Tested and validated by Evolis R&D and Quality departments, these consumables bring you printing quality and reliability.
Use Evolis High Trust® ribbons to keep off defects and to benefit from high-quality printouts and at an optimal cost-per-card.
Thanks to the ribbon saver feature, when you use a monochrome ribbon, you significantly increase the number of cards to be printed with one single ribbon. Indeed, the surface used on the ribbon corresponds to the real printed surface plus a 7 mm jump and not the surface of a whole card.

Evolis card printers + Evolis High Trust® consumables = the winning combination!
